Reasons for seeking asylum

The main issue is Myanmar's current political unrest and aggressively moving towards civil war, subsequently followed by mandatory military service. In the meantime, the opposition rebel groups are also recruiting the young people to enroll in their military service. We are stuck in between and to makes things worse, we are Chinese descendants and hence we have been discriminated badly ever since. Therefore, we have no other option but to flee to Thailand. However, there is limitation to stay and not much opportunity to survive for Myanmar students in Thailand. Every month, the authorities are financially abusing my parents as we are in abroad and cannot get hold of us. Under these unfortunate circumstances, we would like to seek UN shelter and thus we hereby kindly request to give us a chance to take refuge in a third country to survive.

Respectfully,

Aung Khant Kyaw
